Criteria:

Rating (Points)

	Unsatisfactory (0 pts)	Fair (5 pts)	Satisfactory (10 pts)	Good (15 pts)	Excellent (20 pts)
Introduction/background					
Presentation style					
Content					
Visual aids					
Overall Quality					

TOTAL SCORE

Aspects:

- Introduction/background: Clearly states purpose for study, objectives, and hypotheses; presents background needed to understand research; title is a good index to content.
- Presentation style: Clear, logical and concise. Text sufficient to explain illustration and to state objectives and conclusions, but not excessive. Ability to respond to questions.
- Content: Clearly stated objectives and conclusions, data adequate, analysis and summaries appropriate; illustrations appropriate, understandable, informative.
- Visual aids: Logical layout; appropriate amount of information; effective use of graphics; conforms to conventions in grammar, punctuation, and spelling
- Overall Quality: Appropriate methodology and interpretation of results; student demonstrates a high level of understanding; research provides new contribution to knowledge; confident and effective responses to questions
